Summary

I am a frontend developer with very good experience as I worked with a website development company in Syria Akitu Dynamic as a Frontend developer.

Where I became an expert in designing and modifying blogger templates (Google) and gained a great expert in CSS, HTML and JavaScript.

I started learning and working in PHP language within the framework of Laravel's work and gained good experience in it. I learned to search for solutions to programming problems and learned logical analysis in order to find the solution.

Skill Highlights

- Able to work under pressure within a team work
